Recent Experiments are a Pronounced Success.

AN INCREASE OF REVENUES.

A Still More Liberal Scheme Will Be Submitted to the Next Congress by Postmaster General Wanamaker-Various Other Dispatches from the National Capitai.

WASHINGTON, Sept. 8 .- Postmaster General Wanamaker was very indignant yesterday when he learned that during his absence on vacation an ill-informed clerk in one of the bnreans of the postoffice department had given out false information to the press that the free delivery experiments are not a success. He caused an examination of the latest reports from these experiments to be made, and found that they were succeeding beyond the most sanguine expectations, and in a way to utterly confound the critics of the experiment.

It is already an established fact that the increased revenue in the offices where the free delivery experiment is on trial almost pays for the increased ex-penditure, and it is hoped by judicions management that in the average the experiment will entirely pay for itself. Mr. Wanamaker has it definitely in mind to present the next congress a scheme by which, when a given sum is asked for, free delivery in a given community, the sum being calculated on the area to be served, the population and other such items, it is almost a mathematical certainty that a sum almost if not quite as largo will be added to the net earnings of the office in question. Even if the free delivery does not quite pay for itself, and it is not likely the postmaster general will ask congress to consider the question whether the rural districts of the country may not properly expect this slight contribution to their postal facilities where in so many quarters they have np to the present time been consid-

ered so limited. SAFETY OF THE MAILS.

The Special Delivery Taking the Place of

the same care is exercised over a letter deposited for special delivery that is given a registered letter? Well, it is true. You can have a letter delivered by special messenger without any delay, for ten cents. It costs the same to register a letter. The government does not insure the delivery of a registered letter. It only promises to exercise the greatest possible care in delivering it to the person to whom it is addressed. It is not in a strong wind was blowing at the time. When at the height of 5,000 feet she cut her parachute did not open quick enough whom it is addressed. It is put in a special pouch. The same is true of a special delivery letter or package. The cost and care is identally the same, with the advantage of having the special delivery delivered sooner than the registered package."

tered package."
It is stated that as this point of difference becomes known the registry basiness diminishes and the special delivery increases. 1: threatens to become a serions matter to the revenues of the government. There is very little, if any, profit in the special delivery business. It costs ten cents in most places to deliver a letter or parcel. The registry business is largely clear profit. Only the clerical and stationery outlays make the expense of the system. The same expense, however, accrues to the special delivery system.

Artificial Frost Prevention.

WASHINGTON, Sept. 8 .- As an ontgrowth of Senator Farwell's scheme for artificial rain production, artificial frost prevention is now snggested. L. G. Kniffen, of Chicago, has written a letter to Secretary Rusk on the subject. His theory is that clouds of artificial mists prevent the radiation of heat from the earth. He suggests that the machinery and materials used by Colonel Dyrenfurth in causing rain be tested as a means for bringing the clouds closer to the earth and of creating a sort of a fog which will be a preventative against the ravages of frost.

## THE COPYRIGHT LAW

How the New International Law Works.

SPECIAL INQUIRY MADE

Alexander P. Brown Interviewed on This Important Subject Just After Returning from a Trip to England-He Found Several Surprising Things Abroad.

Boston, Sept. 8.—Alexauder P. Brown has just returned from England, where, as counsel for several English publishing houses, he has been making a special inquiry into the working of the new international copyright law. He found some English publishers disposed to complain of the provisions as to the American manufacture of American editions as bemanufacture of American editions as being a hardship upon them, but he answered this objection by pointing out that if the books were not worth the cost of protecting by copyright all they had to do was to publish without copyright as now. They also fully recognized that the real reason why American printers insist upon the insertion of the so-called "manufacturing clause" in their new law was not so much on account of what English publishers wight do but largely English publishers might do but largely because a custom was growing np among American publishers of manufac-turing editions of books by American authors in Great Britain which were in-

tended for sale in the American market.
"For instance," said Mr. Brown, "if I am not mistaken the American edition of 'Silas Lapham' was made from type set in Edinburgh. I was surprised to learn that the practice of setting book type by machinery was becoming general in London and that the cost of manufacturing book was for this reason considerably reduced. I was shown specimens of machine set books and the work certainly seemed to me to be as well done as by hand. I also met a number of the leading music publishers of London and found them, as a rule, much more attentive to the importance of American copyright protection of their goods than their brethren of the book trade appeared to be. I found that several of them had rather made or were then making arrangements for the establishment of American agencies and for the manufacture of the American edition of their goods in either New York or Boston.'

HOME RULE IN IRELAND.

Michael Davitt Says It is but a Matter of

a Few Years. SAN FRANCISCO, Sept. 8 .- Michael Davitt has been living in Oakland for a fow months and now he is going to return to Ireland to his life work. In an

interview he said: "Ireland is on the brink of freedom. Home rule is only a matter of a few ears. Parliament may be run by En glish law until 1893, but there is so much dissension and difference in political fac-tions that Salisbury must call the general elections for April next or at worst for the following autumn.

Passed a Forged Check.

Mansfield, O., Sept. 8.—A young man who gave his name as J. H. Hilton, but refused to give his residence, was arrested here last night, having in his possession a check on the Citizens' bank for \$8.50. payable to J. G. Hilton, and signed by E. M. Wolffe & Company. The latter pronounce it a forgery. Earlier in the evening he had presented a similar check in payment for a small purchase of meat at a butcher shop, securing the balance of the check in cash. The fellow is unknown here.

Prison Guard Put to Sleep. MANCHESTER, N. H., Sept. 8.—Early this morning two prisoners at the industrial school, named John Tobin and Frank Willis, placed some sleeping pow-ders in a glass of lemonade and gave it to Albion Clough, a watchman. When the latter was stupid from the effect of the powders, the two prisoners beat him with a ball bat and a brass nozzle. The noise was heard by another prisoner, who gave the alarm, preventing any further injury to Clough and the escape of the assailants.

Arrested for Arson.

Canton, O., Sept. 8.—Samuel Kline was yesterday arrested on the charge of arson, the complaining witness being his wife. They have not been living to gether, owing to domestic troubles. The household goods were stored in the house preparatory to their removal by the woman. The house was broken open and a fire started among the goods. After burning a hole in the floor and a portion of the goods the fire went out as mysteriously as it was started.

Chicago, Sept. 8.—Abram Elder, president of the A. P. T. Elder Publishing company, and H. L. Barber, his assistant, were held in \$500 bail each to the federal grand jury yesterday on the charge of having imported an alien under contract to work as a laborer. On the charge of violating the postal regulations in obtaining money through false pretenses, Elder and Barber were held in \$1,500 bail, by Commissioner

SITUATION IN MEXICO.

A Belief That She is on the Eve of a Revoiution.

Galveston, Sept. 8.—A gentleman interested in railroad building in Mexico and connected with jetty works at Tainpico very recently arrived at Galveston from that country, and in the course of an interview made some startling statements. "Mexico," said he, "is now on the verge of a revolution. During my stay in the republic I had a splendid chance to study its people and a large number of persons of the lower class of Mexicans employed. Many Mexicans expressed themselves as greatly disantisfied with the government and would willingly rebel if there was any one to lead. The people are opposed to military law, and an outbreak might occur at any time. A large portion of the better from that country, and in the course of any time. A large portion of the better class of Mexicans who are opposed to Diaz's administration are circulating among the ignorant classes and leading them to believe that Diaz is working in the interest of the United States government in granting railroad franchise to corporations whose stockholders are citizens of the United States.

"Before leaving Tampico I visited an old French doctor, who has been an inhabitant of Mexico for the past forty years, and he informed me that in case of an uprising I had better leave, as the feeling against Americans, and especially citizens of Texas, is very bitter. In talking over the situation, he said that the prospects for a revolution had not looked so ripe for many years. The success of the Chillian insurgents over Bal-maceda had given the Mexicans great hope, and many believe the Diaz goverumeut oan be overthrown in the same manner. This is the true situation. without any prejudice to either party.

TENNESSEE LEGISLATION.

A Very Important Proposition Wiii Soon

Be Made to It. NASHVILLE, Sept. 8.—The senate met yesterday and adjourned in observance of Labor Day immediately after Mr. Penland's bill to repeal the convict lease

law had been offered.

The Tennessee Coal, Iron and Railroad company, the lesee of the penitentiary, will, through the chairman of the penitentiary committees of the legislature, submit a proposition to cancel the present contract and make a new one. According to authentic information the lesees agree in this proposition to pay \$1 per diem for the labor of each convict, the state to feed and clothe the convicts and bear the expense of transporting them to and from the main prison.

The lesses propose to employ all able bodied convicts at the mines in Mariou, Bledsee and Secretable convicts only

Bledsoe and Sequatchie conuties only. They offer to erect a new prison by convict labor at a cost of several hundred thousand dollars, and confine within its walls all convicts who are not strong enough to dig coal. The new prison is to be built at the head of Sequatchie valley, nnder the direction of the state archtiect, and 500 acres of ground surrounding will be given to the state, the ground to be worked by the partially disabled convicts.

WITH A DYNAMITE BOMB.

Sensational Sulcide in a San Francisco Hotel.

SAN FRANCISCO, Sept. 7.—F. L. Caroli registered at the Prescott House yesterday morning as William F. DeYoung, of Fresno. Shortly afterward an explosion which shook the buildings in the neighborhood attracted attention to his room, and it was found that he had committed suicide by exploding a dynamite bomb. His remains were scattered all over the room, and one of his arms was found in the street. The windows and plastering were broken and the furni-

ture damaged. The deceased had been working on a fruit farm near Fresno. He told a nnm. ber of persons here that he intended taking his life, as he wanted to create a sensation for the newspapers, but in a note to the coroner, which he left, giving his age as forty-one years and birth place as Holland, he says he committed suicide because life was not worth

Reports of a Battle Fought in East Africa.

LIEUT. STUHLMANN KILLED.

Slave Traders Attacking the German Forces Commanded by Emin Pasha at Every Opportunity - The Expedition Cut Off from Receiving Relief or Supplies-Other Foreign News.

London, Sept. 8,-A serious disaster is reported to the German expedition in East Africa, where the Arab slave traders have been carrying on a savage fight with the Germans, the latter commanded by Emin Pasha, supported by Lieutenants Stuhlmann and Langheld. At the latest previous accounts Emin was on his way to Lake Tanganyika, en route for Ujiji and the slave traders were attacking him and his forces at every opportunity. The vali of Karagwe tried twice to send goods after the Germans, but the bearers had to return, some of them wounded.

Now comes a dispatch from Zanzibar stating that in a skirmish at Lake Tanganyike, the natives, probably slave traders, have killed Lieutenant Stuhlmann in a skirmish. Farther particulars as to the safety of the German force are anxiously awaited.

### Labor and Socialism.

London, Sept. 8.—The meeting of miners at New Castle will probably witness a sharp conflict on the subject of socialism. John Burns, the socialist leader, has lately been advancing his doctrines with more energy than ever, evidently in sympathy with the continental plan to identify socialism with the labor cause. The miners are divided on the question, and the Conservatives among them will present a bitter opposition to the Burns idea. A feature of the gathering is the large increase in the number of woman delegates, reminding the public that female labor still plays an important part in the British coal mining industry.

### No Jews on the Police Force.

St. Petersburg, Sept. 8.—The Russian police in all parts of the empire and beyond it have been instructed to discharge Jews from the police service.

Large numbers of Jews have been spies in the police service, and have displayed a marked aptitude for that kind of work. The detection of nihilist conspiracies has in nearly every instance, been brought about by Jewish agents of the secret service. The nihilists, it is said, will rejoice in the information that the astute Israelites are no longer to prey upon them, while the absence of this class of detectives will undoubtedly make more precarious the chance of discovering nihilistic plots.

### Had to Release Him.

BERLIN, Sept. 8.—Carleton Graves, the American who was on Saturday last arrested at Mayence on the charge of being a spy, has been liberated, the government having nothing on which to hold him. When arrested Graves represented himself as being a photographer and his residence as being Columbia. His luggage was seized by the German authorities and searched for evidence of his guilt, as it now appears to no pur-

### Thousands of People Will Suffer.

St. Petersburg, Sept. 8.—The severe distress prevailing among the people has interfered with the success of the Nijni-Novgorod fair. Most of the goods exposed for sale are left in the hands of the exhibitors. This will result in the shutting down of many factories during the coming winter, and the throwing out of employment of thousands of workmen.

### Thirteen People Drowned.

LONDON, Sept. 8.—The English bark, Fiji, running from Hamburg to Melbourne, Australia, has been wrecked at Warnambool, and thirteen of the crew drowned.

### Walerspout Damages.

VIENNA, Sept. 8.—A waterspout at Rudapesth has caused immense damage to the railroad embankment and a freight train was demolished.

### Fell Over a Precipies.

Berlin, Sept. 8.—Dr. Holst, a Prussian magistrate, while ascending Mount Terglon, in the Carnic Alps, fell over a precipice and was killed.

### The Vacancy Sliff Exists.

ROME, Sept. 8.—For the third time the Vatican has declined to accept Russia's nominees for the vacant bishoprics in that country.

### Game of Cards Causes a Murder.

New York, Sept. 8.-Murder was the outcome of a game of cards in the Italian quarter of Tremont, yesterday evening. James Ross was shot and killed and his brother lies in a critical condition in the Harlem hospital. Four Italians, the Ross brothers and the brothers John and Nicoli Bollero, sat about a table at the home of James Ross, at One Hundred and Eighty-seventh street and Arthur avenue, about 7:30 o'clock. A dispute rose and the Ross, accused the Bolleros of cheating. Words came to blows and several shots were fired with the above result.

### Exclusion Act Evaded.

Brattleboro, Vt., Sept. 8.—The Chinamen arrested at Windsor under the exclusion act and ordered returned to China by United States Commissioner Johnson, but whose case was appealed on the ground that they held permits from the Dominion government to return to that country, were yesterday ordered to return to Canada by Judge H. H. Wheeler in the United States court. This decision is important, as it is claimed that all emigrants can readily obtain these permits, thus practically nullifying the exclusion act.

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading drug-gists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.
